

**TASK1:**

We want to open a quotes website. Go to the following URL

<http://www.values.com/inspirational-quotes>

Download the theme (category), image link, quotes, quotes-url for further analysis

**TASK2:**

We want to create a weather forecaster. Go to the following URL

<https://forecast.weather.gov/MapClick.php?lat=37.7772&lon=-122.4168>

Download the 7 day data for San Francisco (Coordinates are already given in url). You need to save the day, desc, high/low (temperature), short description, temperature
